Clean Energy Solutions Corp - Notes to the Consolidated Financial Statements

Fiscal Period Ended December 31, FY2024

Note 1 - Operations and Renewable Asset Accounting

Clean Energy Solutions Corp operates utility-scale solar and battery storage generation assets. Energy generation revenue is recognized based on power delivery under long-term Power Purchase Agreements (PPAs). Power generation infrastructure is depreciated over expected operational lives of 25 to 30 years.

Note 2 - Asset Retirement Obligations and Decommissioning

The company records an asset retirement obligation (ARO) for contractual obligations to dismantle solar arrays and remediate leased agricultural land upon lease expiration. As of December 31, 2024, the discounted ARO liability was USD 18.5 million.

Note 3 - Green Bonds and Project Financing

Long-term project debt comprises USD 180 million of senior secured green bonds due 2035 with a fixed coupon of 4.75%, and USD 100 million in commercial project bank loans. Debt service reserve accounts of USD 12.0 million are restricted and classified within non-current assets.
